1. REAL ESTATE QUARTERLY PERFORMANCE REPORT

As of March 31, 2023

PORTFOLIO PERFORMANCE SUMMARY

The table below displays trailing time period performance for the Pennsylvania State Employees' Retirement System ("PA SERS") Real Estate Portfolio as of March 31, 2023, along with select benchmarks

- **The policy benchmark is the NCREIF ODCE Index, which is comprised of open-end core real estate funds; we also show two additional real estate benchmarks and the S&P 500**
 - The NCREIF Property Index, a benchmark of unlevered core real estate returns
 - The CJA Non-Core Real Estate benchmark consists of non-core (value-add and opportunistic) closed-end real estate funds
- **The total real estate portfolio has generated a total net return of -2.9% year-to-date**
 - The portfolio has generated an annualized return of 8.0% over the trailing three years

Portfolio Performance	YTD	1 Year	3 Year	5 Year	10 Year	Inception

Data as March 31, 2023. Sources include NCREIF, CJA, Manager data, and NEPC.

1. The NFI-ODCE Index represents pooled returns of open-end comingled core funds in the ODCE Index. The ODCE includes the effects of leverage, and returns shown are time-weighted and net of fees.
2. The NCREIF Property Index (NPI) represents property-level returns of institutionally-owned core real estate properties in the United States. The NPI is unlevered, and returns are time-weighted and gross of fees.
3. The CJA Benchmark represents pooled horizon internal rate of return (IRR) calculations, net of fees, across value-add and opportunistic real estate funds.
4. The timing and magnitude of fund cash flows are integral to the IRR performance. Benchmark indices that are time weighted measures should not be directly compared to dollar-weighted IRR calculations. Index data is continuously updated and is therefore subject to change.

PORTFOLIO ALLOCATION OVERVIEW

- The charts below show PA SERS real estate portfolio broken out by strategy and by investment structure, with closed-end funds further broken out by lifecycle stage
- As shown, approximately 55% of the portfolio is invested in Core, Core-Plus, and REITs
 - We anticipate the Value-Add and Opportunistic strategies to grow over time, in-line with the recently approved new sub-strategy targets

Data as of March 31, 2023. Liquidated investments not shown. Returns shown do not take into account risk/volatility of underlying strategies. Note that, due to rounding, there may be slight differences between the summed figures, totals, and amounts shown elsewhere in this presentation.

PORTFOLIO DIVERSIFICATION

- The PA SERS real estate portfolio is broadly diversified by property type and geography within the U.S.
- 19% of the portfolio is invested outside the U.S., primarily in Europe

Geography

Property Type

Data as of March 31, 2023. Underlying diversification data provided by the investment managers.

HISTORICAL PERFORMANCE BY VINTAGE

- **The following chart illustrates capital invested and inception-to-date performance by vintage year as of March 31, 2023**
 - Inconsistent pacing has negatively impacted portfolio performance
 - The PA SERS Investment Office and NEPC are focused on maintaining a consistent investment pacing schedule to mitigate the risk of heavy capital investments in poor vintage years

Commitments & Performance by Vintage Year

Data as of March 31, 2023. Notes: Vintage years 2020 and later are excluded as data is less meaningful. For separate accounts, the date of initial commitment or investment is used as the vintage year.

10-YEAR CASH FLOWS

- The chart below illustrates the capital invested, distributed, and net cash flows for the real estate portfolio YTD and over the prior 10 full calendar years**
 - The portfolio was cash flow positive in nine of the last 10 years, including in 2022
 - Distributions have slowed in 2023, driven in part by tepid transactions markets, resulting in net cash outflows year-to-date

Data as of March 31, 2023. Offsetting cash flows have been excluded, such as assets that were transferred from one account to another.

ACTIVE DIVERSE-LED INVESTMENTS

- The table below displays the since-inception performance of active (non-liquidated) investments managed by diverse-owned and diverse-led investment management firms in the PA SERS real estate portfolio

Data as of March 31, 2023. NEPC defines “diverse-owned” as a firm that’s at least 50% owned by an under-represented group and “diverse-led” as a firm that’s 33% to 50% owned by an under-represented group. The funds listed on this page are those which NEPC has identified as diverse-owned or diverse-led as of March 31, 2023. Therefore, it is possible that a firm may have been diverse-owned or diverse-led at the time of PA SERS commitment but is no longer, and therefore is excluded from this list. While NEPC has exercised reasonable professional care in preparing this information, we cannot guarantee the accuracy of all source information. Note that, due to rounding, there may be slight differences between the summed figures and the totals.

2. REAL ESTATE MARKET & PORTFOLIO UPDATE

REAL ESTATE MARKET UPDATE

- **Private core real estate saw negative returns continue in the second quarter**
 - The ODCE posted a -2.7% gross return for Q2 (vs. long-term average of 2.2%)
 - This brings the trailing 1-year return down to -10.0%
- **Overall market themes and trends are consistent with prior quarter**
 - The market is continuing to adjust to the changing interest rate environment, which has provided headwinds for real estate investors as higher cap rates put pressure on asset values
 - Transaction markets remain tepid, but activity for industrial and residential is picking up
- **The future of office remains uncertain**
 - Office vacancies continue to tick-up as investors and tenants alike try to assess future demand
- **Industrial, retail, and apartment properties continue to experience healthy fundamentals, including stable or declining vacancy rates**
 - Income growth can partly offset the impact of cap rate expansion
- **Pricing and availability of debt is of increasing importance**
 - Rising interest rates also increase the cost of financing real estate investments
 - Maturing debt may serve as a catalyst for distressed opportunities to materialize

LOOKING FORWARD

- **NEPC will continue to work with the PA SERS Investment Office to implement the strategic investment plan for the real estate portfolio, including:**
 - Shifting the underlying strategy mix to the new targets approved in 2022, a process which we anticipate occurring over several years
 - Identifying potential investment opportunities for 2023 value-add and opportunistic commitments
 - We will seek strategies that will both complement the PA SERS portfolio and capitalize on the current market environment
- **Best practices for private market investments include maintaining annual commitment pacing, even through periods of uncertainty**
 - It is the manager’s job to navigate the market and identify attractive investment opportunities

Sub-Strategy	Current Allocation	Target Allocation
Core / Core-Plus	44%	25%
Value-Add & Opportunistic	45%	70%
REITs	11%	5%

ALTERNATIVE INVESTMENT DISCLOSURES

In addition, it is important that investors understand the following characteristics of non-traditional investment strategies including hedge funds, real estate and private equity:

1. Performance can be volatile and investors could lose all or a substantial portion of their investment
2. Leverage and other speculative practices may increase the risk of loss
3. Past performance may be revised due to the revaluation of investments
4. These investments can be illiquid, and investors may be subject to lock-ups or lengthy redemption terms
5. A secondary market may not be available for all funds, and any sales that occur may take place at a discount to value
6. These funds are not subject to the same regulatory requirements as registered investment vehicles
7. Managers may not be required to provide periodic pricing or valuation information to investors
8. These funds may have complex tax structures and delays in distributing important tax information
9. These funds often charge high fees
10. Investment agreements often give the manager authority to trade in securities, markets or currencies that are not within the manager's realm of expertise or contemplated investment strategy
