EMPOWER RETIREMENT ADVISORY SERVICES

Retirement planning is a journey. The reality is, many participants aren't retirement planning experts, nor do they want to be. You may have your own investing style and want help that accommodates your personal needs.

Empower Retirement Advisory Services are offered by Advised Assets Group, LLC, a registered investment adviser, to meet the unique needs of diverse participants. Advisory Services is based on the philosophy that individual participants typically fall into one of three common investor types: do-it-for-me, help-me-do-it, and do-it-myself. My Total Retirement™ and Online Advice can provide assistance for investors who are looking for advice and help with their investments. You have the opportunity to choose the level of assistance you want as you build a retirement strategy that is tailored to and designed specifically for you.¹

There is no guarantee that participation in any of the Advisory Services will result in a profit.

Help-me-do-it investor

If you are a help-me-do-it investor, you might choose Online Advice when you want assistance with managing your account. Online Advice provides fund-specific portfolio and savings rate recommendations based on your needs using the core funds available to you as part of your Plan. These recommendations reflect your unique financial information, retirement time frame, goals, and financial situation. You must implement any recommendations and monitor your account on a periodic basis.

Do-it-myself investor

If you are a do-it-myself investor, you can use the available online tools at www.SERS.pa.gov to select your own investment options. You can get asset allocation and savings rate information that reflects your unique financial information, retirement time frame, goals, and financial situation.

Spend-down advice

Advisory Services also recognizes that your strategy doesn't end at retirement. So when you participate in any of the Advisory Services options, you are provided with the added benefit of spend-down advice, which assists you when you retire and begin taking distributions from your retirement account.

With the goal of building financial assets to provide sustainable income in retirement, the spend-down advice feature takes into consideration all of your income sources you provide us and determines how much sustainable income you may have throughout your retirement years. This is done by calculating your maximum sustainable spending rate based on your wealth, your spouse's wealth, and each of your respective retirement time horizons.

From saving to spending, Advisory Services can help

Advisory Services can help you build your portfolio during your saving and retirement years by recommending a strategy specific to your needs and unique situation.
