

## NEW MEMBER PLAN COMPARISON

As a new SERS member, you are now enrolled in a “hybrid” retirement plan, in the A-5 class of service. That means a portion of your retirement benefit comes from a defined benefit pension plan that features guaranteed monthly payments, and a portion comes from a defined contribution investment plan and the amount of money you earn from your personal investment choices.

### YOUR HYBRID PLAN – A-5 CLASS OF SERVICE

As a member of the A-5 class of service, your mandatory contribution toward your retirement benefit is 8.34% of your pay, which is split between the two plans with 5.09% going toward your pension and 3.25% going toward your investment plan. Your employer’s mandatory contribution toward your pension is calculated each year based on the assets and liabilities of the SERS pension fund and their mandatory contribution toward your investment plan is 2.25% of your pay. In general, the pension portion of your benefit is guaranteed to grow by 1.25% of your pay for each year you work for a SERS-participating employer. Income or loss in your investment plan is based on your investment choices and the markets.

### YOUR OTHER OPTIONS

#### Hybrid Plan – A-6 Class of Service

If you switch to the A-6 class of service, your mandatory contribution toward your retirement benefit would be 7.59% of your pay, split between the two plans with 4.09% going toward your pension and 3.5% going toward your investment plan. Your employer’s mandatory contribution toward your pension would continue to be calculated each year based on the assets and liabilities of the SERS pension fund and their mandatory contribution toward your investment plan would be 2% of your pay. In general, the pension portion of your benefit would be guaranteed to grow by 1% of your pay for each year you work for a SERS-participating employer. Income or loss in your investment plan would continue to be based on your investment choices and the markets.

#### Defined Contribution Plan/Straight investment plan option

If you switch to the straight investment plan option, you would contribute 7.5% of your pay toward your investment plan and your retirement benefit would be determined by the amount of money you earn from your personal investment choices and the markets.

### PLAN ESTIMATE COMPARISON

**Pension portion assumptions:** Employee works for 35 years with a final average salary of \$40,000.

**Investment portion assumptions:** 4%

# NEW MEMBER PLAN COMPARISON

## NOTIFY SERS OF YOUR DECISION

You have **45 days** in which you could switch to a different class of service in the hybrid plan, or give up the pension portion of your benefit all together and switch to a straight investment plan option. This document provides you with a comparison of your retirement benefit options. The enclosed *Features and Highlights* provides additional information on the pension plan and defined contribution/investment plan.

If you choose to remain in the hybrid A-5 class of service, do nothing.

If you choose to switch to one of your other options, please mark your choice on the enclosed *Election Form - Hybrid Plan Class A-6 or Straight Defined Contribution Plan* and return it in the enclosed envelope.

Your choice is final and binding, even if you leave state employment and later return to work for a SERS-participating employer.

## THINGS TO CONSIDER

If you change jobs and move into one of the hazardous-duty positions that are exempt from the hybrid and straight investment plan options, you will earn a traditional pension benefit (no investment plan component) in one of two different classes of service.

If you choose the straight defined contribution plan, there will be no pension portion to your retirement benefit, including no SERS disability retirement benefit, no ability to purchase prior military service, and no ability to combine your SERS credited service with service credited in the Pennsylvania Public School Employees' Retirement System for one combined pension benefit.

### Deferred Compensation Plan

Most employees also are eligible to participate in the Deferred Compensation Plan, which is a voluntary supplemental investment plan with tax deferring benefits. Please consider all of your alternatives to save additional money for retirement, including deferred comp and personal savings, and discuss your alternatives with your financial planner or other advisor before making this final and binding decision about your state employee retirement benefit.
